BRIDGE-TO-WORK SOLAR PV TRAINING

Sasol in partnership with The Education Support Forum (TEDSF) and Jobs Fund is offering training designed to foster expertise and innovation in South Africa's growing green energy sector. This programme will offer 4 weeks of specialised training in the solar PV value chain.

Purpose

The initiative focuses on skills development, increasing employability and entrepreneurship in the renewable energy industry.

MINIMUM REQUIREMENTS

- Must be between 18 - 35 years old.
- Must be interested in career opportunities within the green energy sector (especially solar).
- Seek to enhance technical skills and employability in green energy.
- Must be available to commit to this **4-week** training programme.
- Existing business owners who would like to enhance their skills can also apply to be part of the programme.
- Educational Qualification: NCV Level 4 Engineering Studies / N3 - N6 Engineering Studies.
- Must be a resident of the Lekwa or Dipaleseng Municipality.

REQUIRED DOCUMENTS WHEN APPLYING

Please have these documents ready before starting the application:

- Identity document
